Q9 | Do you have any additional comments about the playground renovation?

Anonymous 11/04/2025 12:40 PM	The community has grown a lot and the number of kids is much more than a few years ago. It would be great if the playground is large enough to accommodate all the kids. Thank you!
Anonymous 11/04/2025 03:24 PM	Where are the elements for children with disabilities to play with other children. What elements are you including for kids with wheelchairs and walkers
Anonymous 11/04/2025 05:00 PM	Ask kids what they want
Anonymous 11/04/2025 10:08 PM	The park needs urgent care and maintenance
Anonymous 11/05/2025 07:06 AM	Please do it as soon as possible
Anonymous 11/05/2025 03:25 PM	This is a busy playground being so close to the school. Shade structures and additional seating might be nice. Also i notice nee parks have the rubber pad surface. Can this not be done at this park too? At least the senior side.
Anonymous 11/05/2025 10:58 PM	Monkey bars!! The ones currently there are perfect for kindergarteners all the way to elementary level. Do not get rid of the monkey bars or make them some type of hanging down handles. Just straight normal monkey bars. Also lots of swings.
Anonymous 11/10/2025 06:32 PM	Would like to see enough things for younger kids - many of the new playgrounds have super high structures.
Anonymous 11/11/2025 08:33 PM	Make it suitable for older children 12 and up
Anonymous 11/12/2025 07:05 PM	Lots of fun for school aged kids!
Anonymous 11/14/2025 04:19 PM	Current Whitburn Park playground equipment serves a wide range of ages, it would be very beneficial if the new equipment also has diverse for ages and abilities
Anonymous 11/18/2025 11:10 AM	Looking for autism-friendly parks based Accessible playground,Climbing structures,Walking paths movement + regulation Moderate play equipment

Anonymous 11/18/2025 08:37 PM	Please ensure that there is still a smaller/younger play structure at this location. There is a wide variety of age groups that utilize this park and having areas for older kids AND younger kids is essential! Thank you
Anonymous 11/19/2025 04:07 PM	I would like a soccer net in the sports area.
Anonymous 11/21/2025 08:10 AM	Rubber surfaces/flooring makes for SUCH a better park experience for everyone all year long as opposed to the wood chips or sand. It's safer, more accessible and cleaner for everyone! Please please please have rubber flooring!
Anonymous 11/21/2025 09:55 AM	This is a well used park. A lot of teenagers from school use this park too especially elevated structures. Incorporate equipment for teens and young ones please. A bathroom would be nice instead of a portable toilet.
Anonymous 11/21/2025 10:02 AM	The Playground at the Rose Valley Community Park can be a good example to refer to with integrating climbing element in playground equipment to save space and enable diverse needs. Climbing structure will be so good for the kids.
Anonymous 11/21/2025 02:05 PM	The basketball court gets used a lot. It's important to the community. It's important to maintain the shade here, and resurface the court.
Anonymous 11/23/2025 11:18 AM	Prefer not to have wooden chips and sand or rubber are preferred. Wooden elements are nice. Water feature would be excellent. Would be great to see pollinator plants in the gardens not too many shrubs. Hope the forest isn't affected.
Anonymous 11/23/2025 11:29 AM	Rubber based ground preferred as it deters raccoons from defecating and from kids throwing rocks/sand. Having a small water park would be nice but likely no space/budget. Seating with shade also important on hot summer days..
Anonymous 11/24/2025 11:30 AM	Kids call this the "RED park" - please keep it RED! It's beautiful against the changing forest backdrop. Remove the sand; racoon poop is a hazard here. The drums, the bouncy bridge, the spinners are part of what makes this place special. Best park ever.
Anonymous 11/24/2025 11:36 AM	There's been a sharp increase in extremely dangerous raccoon poop in this park. Avoid sand stations as they become a litter box which can infect kids and cause brain damage. Consider short fencing to disrupt raccoon paths. Keep it red, keep monkey bars.
Anonymous 11/24/2025 09:25 PM	I am 10 years old and since I was 10 months old, I have been calling this the "Red Park" so I would like you to keep most of the

playground red coloured. I would like some monkey bars too, as I feel they are the most important part of a park. Thanks!

11/25/2025 09:40 AM

The sand in the junior playground is well used. Please leave sand in the park. If adding an elevated sandbox please add one with lots of drainage as they fill up with water and dirt at other parks.
